

The unthinkable happened. History repeated itself. The world's leading economic systems tumbled like dominoes. Unstoppable. Asia. Europe. Then finally the U.S. economy faltered, shuddered and collapsed. All of it gone. The wealth of nations was nothing more than a house of cards built on the faultline of an erroneous and globalized monetary philosophy. The shock waves of the catastrophic event were sudden, heart-wrenching and endless. Civil unrest was rampant as people grasped at the last vestiges of the world that once was. But hope remained. Join the residents of this Atlantic coastal island as they strive to overcome odds that have been stacked against them by man, government and nature. Will these US citizens thrive in a world that has to be remade or will they fall into obscurity like those of ancient Rome? Learn through the Islanders how to rebuild society... one person...one town at a time. Follow the people who refuse to accept that America and the free world are gone forever.
